Read on for some of the top tips... How to dominate in Mafia City APK Running a criminal empire takes its toll. It would be much easier if you've considered a few things and you know how to use your time most effectively. Here are some of the top tips for creating a giant account in Mafia City. Create multiple accounts. This is what we mean by thinking outside the box. To really grow and gather strength in the game, you'll want some other accounts that 'feed' your main account. You will want one account to focus exclusively on obtaining and researching cargo and other accounts that do the same for cash flow. Then, you will want to send all profits and cargo to your main account, which will focus exclusively on military strength and expansion. This is how you can expand and be strong without having to worry about having to spend all your time focusing on business and cargo. Play with babes. Playing 'Babe Game' in Mafia City APK will actually do more than get your boss laid down. You will have the ability to unlock new skills by playing Babe Games with your hot AF staff. Do this often and they will unlock new skills that will give you bonuses on cash flow, attack, defense, and more. Also, who doesn't like playing Babe Games? ☺ Enable VIP time with gold. Gold is mafia city's premium currency and by using it to buy VIP time, you will get more cash and rewards while playing. Spend your gold on VIP time as often as possible to maximize your earnings and potential in the game. Of course, you can always use real money to buy gold - or you can download Mafia City APK. Always check your tasks first. When you first open the game, you should always check your tasks that need to be completed to manage your criminal empire more effectively. You may also have Babe Rewards here, so make sure you always check it out too. Keeping a lid on your business will obviously have great results and you will be able to solve a lot of problems before they actually appear and become a big problem. Create alliances with other players. Making allies is an important part of life - they can get you out of sticky situations and have your back when someone tries to move on you. Make allies with other players in Mafia City and you'll be less likely to be taken out in the early stages of the game. Download Mafia City APK Free Now
